PROFESSIONAL PROFILE

IT and web professional with 3+ years in enterprise IT, web development and user support. Currently builds and manages two live company websites (content updates, job postings), designs marketing materials in Canva, and produces bilingual (English/Burmese) social content for Singapore and Myanmar audiences. Background includes L1/L2 IT support covering hardware, software and network issues, plus formal training in web technology and web development (HTML, CSS, JavaScript, Python, Django, MySQL). Microsoft-certified, with a track record of turning business needs into practical, user-friendly solutions.

CORE SKILLS

Web Design & Management	Website building, content updates, job posting management, bilingual (English/Burmese) content
Graphic & Digital Design	Canva (flyers, social posts, company profile presentation), HeyGen AI avatar videos, letterheads and business templates
IT Support	L1/L2 support, setup, troubleshooting and maintenance of hardware, software and network issues
Hardware & Networking	Basic hardware and network troubleshooting; Google Technical Support Fundamentals
Web Development	HTML5, CSS3, JavaScript, PHP, Python, Java, Django, MySQL, Git
Business Applications	Power Apps, Power Automate, Power BI, Dataverse, Dynamics 365, SharePoint

PROFESSIONAL EXPERIENCE

IT Recruiter (Apprenticeship) – IT, Digital Marketing & Operations Support August 2026 – Present

Global-HR Staffing Service Pte Ltd (EA Licence 10C5543) and affiliated training centre | Singapore, On-site

- Built and maintain two company websites (globalhrss.com and giesg.com), managing content updates and job postings.
- Design flyers and marketing materials in Canva and built the company profile presentation.
- Create recruitment content for TikTok, including Marketing video, targeting Singapore and Myanmar audiences ([@global.hr2001](https://www.tiktok.com/@global.hr2001)).
- Set up bilingual (English/Burmese) WhatsApp Business auto-replies to handle candidate enquiries faster.
- Prepare business documents such as letterheads, templates and payslip formats.

Mid-Senior Application Developer (Remote)

February 2025 – May 2026

BIM Group of Companies | Myanmar

- Designed and delivered Canvas and Model-Driven Apps integrated with Dataverse and SharePoint for internal operations and client deployments, including an invoice management system, car booking app, ticketing system and quality management system.
- Built multi-stage approval and scheduled workflows in Power Automate, including automated PDF generation after approval.
- Worked directly with business users on requirements, UAT, deployment and go-live support; wrote user stories, swim-lane diagrams and technical documentation.

Application Developer

February 2023 – January 2025

BIM Group of Companies | Myanmar

- Developed and maintained internal and client-facing Power Apps solutions, improving efficiency across multiple business units.
- Provided ongoing CRM support for an insurance client (Model-Driven App on Dataverse): troubleshooting issues, JavaScript customisations and usability improvements for end users.
- Automated high-volume manual processes with Power Automate, reducing workload and errors.

IT Support Intern

December 2022 – January 2023

BIM Group of Companies | Myanmar

- Delivered L1/L2 IT support covering hardware, software and network issues across the organisation.
- Diagnosed and resolved end-user incidents efficiently, building a foundation in enterprise IT environments and customer-facing support.

EDUCATION
