

ANTT HEIN

Power Platform Developer | Web Developer | Microsoft Certified

antthein.dev@gmail.com • +65 8517 4335 • Singapore • [antthein.github.io](#)

PROFESSIONAL PROFILE

Microsoft-certified Power Platform Developer with over 3 years of hands-on experience delivering enterprise and client-facing solutions across Power Apps, Power Automate, Dataverse, and Dynamics 365 CRM. Proven across the full delivery lifecycle — from requirements gathering and solution architecture through to deployment and go-live support. Adept at translating complex business requirements into scalable, maintainable applications. Currently expanding expertise in full-stack web development (HTML, CSS, JavaScript, Python) and AI-assisted tooling.

CORE TECHNICAL SKILLS

Power Platform	Power Apps (Canvas & Model-Driven), Power Automate, Power BI
Dataverse	Table design, entity relationships, security roles, business rules
Dynamics 365	CRM customization, workflow automation, form design, business processes
Web Development	JavaScript, HTML5, CSS3, Python, Java, Django ORM, MySQL
Automation	Approval flows, scheduled flows, exception handling, system integration
Tools & Methods	Git, SharePoint, documentation, swim-lane diagrams, UAT facilitation

KEY ACHIEVEMENTS

Invoice Management System

- Delivered a Power Apps-based invoice management system integrating SharePoint as the primary data store, eliminating a fully manual paper-based process.
- Engineered end-to-end automated approval workflows using Power Automate, accelerating invoice review cycles and reducing manual handoffs.
- Implemented auto-PDF generation post-approval, standardizing documentation and cutting record-keeping effort.

CRM Support — AYAsompo Insurance (Myanmar)

- Led CRM system support for a client insurance deployment built on a Model-Driven App and Microsoft Dataverse.
- Diagnosed and resolved recurring functional issues, authored JavaScript customizations, and optimized workflow performance — improving system stability.
- Partnered with business stakeholders to streamline data entry processes, enhancing accuracy and user adoption.

Car Booking & Ticketing Applications

- Architected and delivered a Canvas App for car booking with role-based access controls, integrating SharePoint and Power Automate approval flows.
- Built an internal Ticket Management System managing creation, assignment, prioritization, and status tracking — with automated notifications via Power Automate.

Quality Management System (QMS)

- Built a Power Apps Canvas App to manage quality records, non-conformance tracking, and corrective actions for an enterprise client.
- Integrated SharePoint for data storage and Power Automate for approvals and role-based access control.

PROFESSIONAL EXPERIENCE

Mid-Senior Application Developer (Remote)

BIM Group of Companies | Myanmar

February 2025 – Present

- Architect and deliver Canvas and Model-Driven Apps integrated with Dataverse and SharePoint, supporting both internal operations and external client deployments.
- Engineer complex Power Automate workflows covering multi-stage approvals, scheduled automation, and exception handling logic.
- Drive end-to-end delivery across the full project lifecycle: requirements analysis, solution design, development, UAT, deployment, and go-live support.
- Collaborate directly with business stakeholders and delivery teams to translate business requirements into scalable, production-ready solutions.
- Contribute to delivery documentation including swim-lane diagrams, user stories, and technical specifications.

Application Developer

BIM Group of Companies | Myanmar

February 2023 – January 2025

- Developed and maintained a portfolio of internal and client-facing Power Apps solutions, improving operational efficiency across multiple business units.
- Designed Dataverse schemas, entity relationships, and security models to underpin scalable data architecture.
- Automated high-volume manual processes using Power Automate, reducing operational workload and minimising human error.
- Provided ongoing CRM support for insurance clients, including troubleshooting, functional enhancements, and JavaScript customisations.
- Engaged closely with business users to refine system usability, improve data quality, and drive adoption.

IT Support Intern

BIM Group of Companies | Myanmar

December 2022 – January 2023

- Delivered L1/L2 IT support covering hardware, software, and network issues across the organisation.
- Diagnosed and resolved end-user technical incidents efficiently, building a foundation in enterprise IT environments and customer-facing support.

EDUCATION

Diploma in Web Technology (DWT)

May 2024 – April 2025

Singapore | Completed coursework in front-end and back-end development using HTML, CSS, Python, and Java, with database integration via Django and MySQL.

Diploma in Web Development (DWD)

November 2022 – June 2023

Yangon, Myanmar | Practical training in web development, database management, and IT support using HTML, CSS, JavaScript, and PHP.

BSc Geology (Third Year)

2015 – 2019

University of Bago, Myanmar

CERTIFICATIONS

Microsoft Certifications

- Microsoft Certified: AI Business Professional (April 2026)
- PL-900: Microsoft Power Platform Fundamentals
- PL-7001: Create and Manage Canvas Apps with Power Apps (Microsoft Applied Skills)
- PL-7002: Create and Manage Automated Processes with Power Automate (Microsoft Applied Skills)
- PL-7003: Create and Manage Model-Driven Apps with Power Apps and Dataverse (Microsoft Applied Skills)

Other Certifications & Training

- CS50: Introduction to Computer Science — Harvard University / edX
- Technical Support Fundamentals — Google
- Power BI / Power Apps & Automate Foundation — BIM Training
- Advanced Power Apps & Automate — BIM Training
- Computational Thinking — American Center Yangon

PROFESSIONAL DEVELOPMENT

- Full Stack Development with AI | NUS School of Computing (In Progress)
- Preparing for Microsoft PL-400: Power Platform Developer Associate certification
- Enrolled in Microsoft Learning PowerUp Program
